

YOOCASA

« Enjoy the pleasures of hearth and home... online. »

YooCasa is an inviting, intimate and secure online environment, where you can :

- Spend quality time online in complete privacy.
- Invite your family and close friends to join in online get-togethers.
- Enjoy time together sharing in many fun activities like games or coloring pictures.
- Strengthen family ties that distance or modern life may weaken.

Friday, April 9th 2010

YOOCASA, offers a unique world of interactive games and activities designed for all family members, from the youngest children to grandparents.

In cooperation with leading specialists in child and family psychology, YooCasa has created an online service offering children the pleasure of spending quality time with the important people in their lives, no matter where they are.

YOOCASA, is an innovative online meeting service that allows the family to gather, despite the distance separating them, through video calls and highly engaging activities, interacting as if they were all together at home.

WITH YOOCASA,

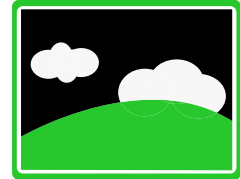

• Strengthen family ties

With our video calls, you'll spend quality time with your family, despite the distance between you. And to make it even more fun, we've added special background effects like snow or teleportation into The Matrix. If a family member is not online, you can leave a message at any time.

• Share and view your photo albums together

During a video call, you can organize a slideshow of last weekend's photos, or share your family history through pictures. Out of respect for individual privacy, the photos you add to your personal space are shared only with members of your choosing.

• Play together

Choose a game and relax with your family, even if you're not at home. For example, you can color a picture with your children and see their pencils in real time, as they choose a color and do the coloring. You can also play Concentration, engage in a naval battle, or take part in a race — all from a distance.

• Simplify and organize your family life

The shared calendar will help you plan the day-to-day life of your family, and you'll never miss Aunt Mary's birthday again.

• Be sure to always give the right gifts

At birthdays or Christmas, it's not always easy to pick the right gift or be sure someone else doesn't have the same idea. With gift lists, Yoocasa helps you make these important choices. You can also organize group gift purchases.

• Safety first

Parental control on invitations, set up for children under 18, allows parents to protect their children from undesirable encounters. With Yoocasa, your private life is really private!
